MOBILITY PRINT
BYOD SOLUTION & GOOGLE CLOUD PRINT ALTERNATIVE

PaperCut
◢ Mobility Print

Beginning January 1, 2021, devices across all operating systems will not be able to print using Google Cloud Print. Papercut Mobility allows schools to make the switch from Google Cloud Print to easy printing from Chromebooks, iPads, iPhones, Macs, Windows, and Android devices.

All simpler than ever to set up. All 100% free.

Mobility Print can scale from a small single subnet to the most complex school network, serving tens of thousands of users.

FEATURE-RICH
AND EASY TO USE

CHROMEBOOKS AND BEYOND
Auto-install drivers to print from a mix of Chromebooks, iPads, iPhones, Macs, Windows, and Android devices.

NATIVE UI PRINTING
Hit CTRL+P or 'print' right in the device's interface to enable simple, functional printing from any application.

SIMPLE SELF-SETUP FOR USERS
Point users to a self-setup page to find shared network printers themselves and ease the load on your IT team.

CONTINUOUS UPDATES
Get the latest features pushed automatically to cut out costly software maintenance and intrusive app updates.

FOR SCHOOLS THAT ARE NOT USING PAPERCUT NG/MF:
Download Mobility Print from this page
www.papercut.com/products/free-software/mobility-print
and install it on the same computer you normally run the Google Cloud Print connector on. In other words, a computer that has printers installed and remains on.

Once installed, share the setup link (shown at the bottom of the Mobility Print Admin page) with your users. You can continue to use Google Cloud Print in parallel until you are happy that all of your users have migrated to Mobility Print

FOR SCHOOLS THAT ARE USING PAPERCUT NG/MF:
Install Mobility Print on your existing print server that's being monitored by PaperCut. Share the setup link with your users and switch off Google Cloud Print once you are happy that all of your users have migrated to Mobility Print.

WHY MOBILITY PRINT
IS OFFERED AT NO CHARGE

We're passionate about making easy BYOD printing a reality for schools. No catch, no phishing – just a solution we view as a basic printing need. And if you find yourself wanting to track and control printing in the future, we can set you up with a solution to perfectly complement Mobility Print.

GET IT NOW: https://info.acd-inc.com/gcpalternative

DO MORE WITH YOUR BYOD PRINTING

More than meets the eye, Mobility Print leverages powerful features and products to get the most out of everyday printing, every day.

CONVENIENT OFF-NETWORK PRINTING (COMING SOON)

Mobility Print harnesses PaperCut's cloud service to let users print when they're outside your network, or on an untrusted guest network.

It's smart, too: jobs stay local when they can to keep things quick and only use internet when necessary – and cloud jobs compress and encrypt to save on space and keep your data safe.

COMPATIBLE WITH PAPERCUT NG & PAPERCUT MF

Get full control and visibility to complement unmatched mobile printing.

- See who prints what, where, and when across all BYO devices in your network.

- Cut costs and waste with detailed reporting, quotas, and print policies like grayscale and duplex.

- Protect documents by making users release jobs at the printer with secure authentication methods.

GLOBALLY PROVEN AND PREFERRED

Over 10 million people happily use Mobility Print all over the world – from schools to law firms and large enterprise businesses.

PARTNERED FOR YOUR BENEFIT

PaperCut works with Google to optimize printing on Chromebooks, the most adopted device in education – with enterprise businesses following suit. Today, Google officially endorses Mobility Print as a leading alternative to Google Cloud Print.
